

The Federal Communications Commission

Dear The Federal Communications Commission,

I have a cell phone only for emergencies. I rarely use it and I am against a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I think it is patently unfair for people who make few long distance calls to pay the same as people or businesses that make many calls.

I use my wireless phone for emergencies only. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Sincerely,

Nancy Davlantes
